**At Halifax for Repairs.**

Sch. Rob Roy of this port, bound  
on a Greenland flitching trip under  
command of Capt. Patrick Vale, and  
recently reported in on the Cape  
Shore leaking, arrived at Halifax on  
Saturday where she will haul out and  
repair before proceeding.

**Shacking Trip Stock.**

Sch. James W. Parker, Capt. George  
Tufts, stocked \$4480 on her recent  
Cape North salt and fresh cod shack-  
ing trip, the crew sharing \$106 clear.

June 19.

**Praises Sch. Gov. Foss.**

Says the Portland Press:

"Surely the handsomest fishing ves-  
sel ever seen in Portland harbor was  
the Gov. Foss, which was in port  
Thursday. She is a brand new craft  
and this is one of her first trips, if  
not the first. She just anchored for an  
hour or so in the stream and then left.  
Capt. Fred Thompson is in command of  
her. He was formerly in the John  
Hays Hammond and is almost as well  
known in Portland as he is in his home  
town of Gloucester."

**Portland Fish Notes.**

There is no let-up in the arrival of  
herring at Portland. The amount  
brought in Friday reached 275 bar-  
rels and the fish were the same large  
kind as on previous days. These were  
all frozen. Herring are bringing the  
fishermen but a dollar a barrel it is  
said. Some of the fishermen, accord-  
ing to report prefer not to bring their  
catch in rather than sell at that price.

June 20.

**Repaired at Newfoundland Ports.**

Sch. Grayling of this port, one of  
the flitched halibut fleet, arrived at  
Bay Bulls, N. F., last Tuesday for re-  
pairs.

Capt. Laager had tried to get to  
the fishing grounds to the northward  
and found it impossible to reach  
them on account of the great body of  
ice. The craft had got in the ice and  
damaged her bow so that she put  
back to Bay Bulls to repair.

An American salt banker was at  
Bay of Islands, N. F., recently in a  
storm beaten condition with her rud-  
der broken. Repairs were affected  
there.

**Will Change Vessels.**

Capt. Augustus G. Hall, who has  
been a trip halibuting in sch. Sena-  
tor will now fit sch. Catherine Burke  
for the same line of fishing, the craft  
having been bought by Capt. Jerome  
McDonald recently.

Sch. Senator will now fit for seining  
under command of Capt. Am-  
brose Fleet.

**Halibut Sales.**

The fare of halibut of sch. Claudia  
sold to the New England Fish Com-  
pany at 7 1-2 cents per pound for  
white and 5 cents for gray.

**Seeking Bait at Bay of Islands, N. F.**

Several American bankers are re-  
ported to have been at Bay of Is-  
lands, N. F., recently, trying to buy  
bait.

**Will Fit for Swordfishing.**

Schs. Motor, W. H. Reed, Metta-  
comet, Lafayette, Jennie H. Gilbert  
and Hockomock will now fit for  
swordfishing.

**Sailed on Third Salt Trawl Bank Trip.**

Sch. Arethusa, Capt. Clayton Mor-  
rissey, sailed today on her third salt  
trawl bank trip of the season.

June 20.

**MACKEREL PLENTY TO SOUTHWARD.**

**Reported Feeding and Spawning and Moving Slowly Eastward.**

The captains of the netters now ar-  
riving home from the southward re-  
port a large body of mackerel out there.  
Some of the captains, who had been  
fishing where the seiners were operat-  
ing, 12 miles to the westward of the  
South Shoal lightship, say that the  
fish are moving northeast, slowly. They  
are now feeding and spawning, which  
seems to show that the idea that mack-  
erel go to bottom to spawn is incor-  
rect.

Capt. George Peeples of sch. La-  
fayette, who came home from Newport  
this morning, his craft being on the  
way here to fit out for swordfishing,  
says that not for 10 years has he seen  
so many mackerel on the shore. The  
week of bad weather recently and the  
appearance of a horde of sharks out  
there has put a damper on the hopes of  
the netters for a long extended season  
out that way, but the schools of fish  
are still there and appear to be school-  
ing freely.

When they first came on, Capt.  
Peeples says, they could be caught  
with a lawn tennis net, but now they  
are wild as hawks and it is hard work  
to stop a school. Nevertheless the fish  
are there and if the schools go on  
Georges, as they now appear to be  
heading for, there is some great fishing  
ahead.

Capt. Peeples says the fish are mix-  
ed. Some are very large, going four  
pounds easily, while others are large  
mediums, about 10 per cent. of the re-  
cent catches being of the latter kind.  
In the trips too are fish of intermediate  
sizes, all the way from the mediums  
up to the largest kind.

Capt. Elroy Prior of sch. Effie M.  
Prior, who was at Newport yesterday  
with a fresh mackerel fare, reports a  
good body of fish, but very wild, and  
says that when he kept off for mar-

ket. Sunday he never saw any more  
fish showing in his life than at that  
time.

At Boston this morning from the  
South Shoal grounds, are two small  
trips, sch. Shenandoah with 5000 in  
count and sch. Emily Cooney with 3000.

**Recent Mackerel Sales.**

The fare of salt mackerel of sch.  
Arthur James sold to Gorton-Pew Fish-  
eries Company at \$13 per barrel.

The fare of salt mackerel of sch.  
Alert sold to L. A. Treat of Boston at  
\$13 per barrel.

**Seiners at Boston.**

Sch. Shenandoah, 5000 fresh mack-  
erel.

Sch. Emily Cooney, 3000 fresh mack-  
erel.

**Stocks Made by Some of the Cape Shore Fleet.**

Here are a few more samples of what  
good mackerel catches mean to owners,  
fishermen and Gloucester generally:

Sch. Clintonia, Capt. Ralph Webber,  
stocked \$8789.56, as the result of her  
recent Cape Shore mackerel trip, the  
crew profiting splendidly, each man  
taking a check for \$216.55. In addi-  
tion to this sch. Clintonia had a fresh  
fare at New York, on her out south  
season to settle for, the stock on this  
being about \$1400. The Cape Shore  
trip stock is a credit to the quiet fishy  
Capt. Webber, for it is the largest  
made for the whole season by any craft  
of the strictly sailing fleet. sch. Clin-  
tonia not having auxiliary power. In  
point of stock and share it is the  
second highest made by any ves-  
sel in the Cape Shore fleet this season.

Sch. Lucania, Capt. Martin L. Welch,  
stocked \$6808 as the result of her re-  
cent mackerel seining trip, the crew  
sharing \$167.

Sch. Pinta, Capt. Douglass McLean,  
stocked \$4796 as the result of her re-  
cent Cape Shore seining trip, the crew  
sharing \$110.89.

**Fulton Fish Market Notes.**

All things considered, trade in the  
salt water fish market was fair dur-  
ing the past week. There was an  
abundance of almost every variety of  
fish, and prices were such as ap-  
pealed to buyers—the result being  
that much fish was moved.

Mackerel was plentiful and cheap,  
although no seiners or netters ar-  
rived at the market. Large fish sold  
at 17c to 22c, and small ones at 12c  
to 14c.

Cod—Steak fish sold at 8 1-2c to  
11c, and market cod at 5c to 7c.

Flounders brought 2 1-2c to 3c, and  
fluke 2c to 5c.

Haddock sold at 4c to 6c, the high  
price prevailing during the early part  
of the week. Hake was scarce and  
high, selling at 5c to 6c. Pollock was  
quoted at 4c to 6c.

There were 7 1-2 cars of western  
white halibut in the market. The  
fish sold at 7c to 8c until Friday,  
when it dropped to 6c to 7c. Eastern  
white halibut during the latter part  
of the week brought 10c to 12c.

**Change of Light.**

During July this year, the light  
shown from Cape St. Francis, N. F.,  
will, without further notice be chang-  
ed from a fixed red light to a fixed  
white light. The light shown from the  
lighthouse at Fort Amherst south  
side, entrance to St. John's, will be  
changed from a fixed white to an oc-  
culting white, visible 2 1-2 seconds  
and eclipsed 2 1-2 seconds alternately.  
During alteration a temporary  
fixed white light will be shown.

**Towed Here for Repairs.**

Sch. Arrow which was recently  
ashore at Biddeford Pool, was towed  
here Saturday and went on the Rocky  
Neck railways for repairs.

**Will Fit for Haddocking.**

Capt. Michael Powers, formerly of  
sch. Benjamin F. Phillips, will now fit  
sch. Mildred Robinson for haddock-  
ing.

**HERRING SEINER MADE SHAD HAUL**

**FISH RECEIPTS AT THIS PORT SHOW FALLING OFF FROM YESTERDAY.**

There is a let up in fish receipts  
here today. Yesterday the herring  
seiners did nothing, but one of them,  
the Bessie A., was in luck, for she made  
a haul of 85 barrels of shad over in  
Ipswich Bay. Two others made small  
hauls of bluefish which went in cold  
storage.

drew Gouvereau, arrived from a short  
Georges halibut trip, with 40,000 pounds  
of fresh fish, 10,000 pounds of salt cod  
and 8000 pounds of halibut.

# SHORE SEINERS MADE MONEY.

## GASOLINE FLEET MADE GOOD HAULS OF SHAD IN IPSWICH BAY.

The little shore gasoline seining fleet are doing finely these days. They catch anything in sight. One day they strike pollock and load with them and the next day it is liable to be herring or bluebacks, and they scoop these in just the same, for they all mean good money.

The stamping ground of the fleet for some time now has been Ipswich bay and a profitable fishing ground it has proven to be. Yesterday the boats went over and found no pollock or bluebacks, but in their stead shad in plenty. They set for them and in consequence landed some 525 barrels at this port yesterday afternoon before dark.

The fares ranged from 23 to 150 barrels per boat, steamer Bryda F., Capt. Smith, having the latter amount. The fish all went to salt, bringing \$3.15 per barrel, a fine price. Take them right through, the shad do not run as large as those caught last year. They will go about 130 to 140 to a salted barrel. The Bryda F.'s crew will make about \$50 to a man for their few hours work yesterday and the other crafts in proportion, several crews getting over \$25 per man for their short run over to the bay and back.

There were only two arrivals from off-shore here this morning, sch. Eugenia, which came in yesterday afternoon from Georges drifting, hailing for 38,000 pounds of salt cod, and sch. Pythian, which came during the night, from the same line of fishing, having 25,000 pounds.

# ELEVEN FARES AT T WHARF.

## HADDOCK SELLING LOW BUT OTHER KINDS OF FISH GET FINE PRICES.

Three of the fresh Rips fleet and eight market boats, together with the steam trawler Crest, constitute all the arrivals at T wharf since last report. Haddock continues low in price, but all other kinds of ground fish are bringing fine prices.

Sch. Flora J. Sears, from the South Channel, has 50,000 pounds, the largest fare in, the steam trawler Crest hailing for 41,000 pounds. The drifters Hope, Speculator and Boyd and Leeds have about 25,000 pounds each and will make fine trips as large cod is selling at \$5 and \$5.60 and the markets are bringing \$4 and \$5.

# NO REPORTS FROM SEINERS

## MACKEREL REPORTED ON GEORGES BY CAPTAIN OF SALT COD DRIFTER.

There is no word from the seining fleet this morning, although several of the Cape Shore fleet are looked for soon, as seven or eight of them sailed from Canso, N. S., Saturday. None of the fleet were at Newport this morning, so it is probable that all of those operating in the vicinity of the South Shoal lightship are on the fish grounds.

At Newport this morning is one netter, sch. Nokomis, with 900 large fresh mackerel and two swordfish.

That there have been mackerel on Georges early this season is evidenced by the report of Capt. John Williams of the salt cod drifter Eugenia, which arrived here yesterday afternoon. Capt. Williams reports that on June 4, he was fishing on the eastern part of the bank about halfway down, in about latitude 41.40, and there was every indication of mackerel there. The water was slicked and in the late afternoon he and his crew could smell mackerel very plainly. As if to corroborate the signs, one of the crew hauled in a large codfish, and out of its stomach when it was dressed, was taken a large mackerel, which from its appearance was almost alive and had been swallowed but a short time before.

The fare of salt Cape Shore mackerel of sch. Pinta sold to Fred Bradley at \$13 per barrel.

### Mackerel at Portland.

The following lots of mackerel were landed at Portland Friday:

The gasoline boat Gladys had 20 barrels and the Dolphin 15 and the Jenny R., 8, a total of 43 barrels, or about 7000 pounds.

Few of them were under two pounds in weight while the most went to five pounds and some were even heavier.

Schools of mackerel are reported off Cape Elizabeth. They are not large schools, but still they are schools. Friday the United States fisheries steamer Gannet came in at Portland and Capt. Greenleaf reported seeing mackerel west-southwest of Seguin light. He saw a number of schools of fish and one that he passed directly through he was positive were big mackerel. This would seem to indicate that the fish are coming in shore and will soon be there in large numbers. The fishermen who brought in the mackerel were paid five and a half cents a pound for them.

### Mackerel Struck On the Maine Coast.

The Portland Press says:

"It may be safely concluded that mackerel have really struck the Maine coast. Yesterday about five barrels of tinkers were brought in here by Charles Olsen from his traps on Cape Elizabeth. These are the first caught in the vicinity of Portland in anything like a respectable amount in a number of years. Mr. Olsen said he had 3000 pounds of mackerel in his traps and they were of all sizes.

"The appearance of mackerel is all that the fishermen have been wanting to assure them that the mackerel would be plentiful on the Maine coast. Large mackerel may strike in for a day or two, they say, but unless the tinkers come there is little chance that the mackerel will be plentiful. Now that some have been caught, the fishermen think that the fish will really be plentiful on the coast for the first time in a good many years."

### Canso Fishermen Disappointed at Outlook.

A Canso, N. S., dispatch says disappointment has been the common lot of mackerel fishermen during the past week. What was hoped for, judging by early indications, has not yet been realized in the quantity of mackerel taken by net fishermen. In fact, it looks as if the silver-coated beauties have given Chedabucto bay the go by. Off Whitehead fishermen have been more successful. There they used the drifting method. Off Canso dogfish were so plentiful that nets would have been destroyed as soon as they were dropped. Trap fishermen have done nothing.

### Massachusetts Bay Alive with Mackerel.

According to the report of Capt. McGoldrick of the big sea tug International, which came in at Boston Saturday from Philadelphia, the waters along the Massachusetts coast are alive with mackerel. Capt. McGoldrick's report will be read with interest by the men engaged in mackerel seining. The captain said that Friday when off Block island, he ran through an immense school. They were fairly swarming in the water and they moved along like a great silver wave. Off Chatham Friday night another great school of mackerel was sighted, and Saturday morning, inside of Highland light, still another monster school was passed. Men on the tug who have spent years at sea said they never saw such swarms of mackerel.

# BOSTON MARKET WELL SUPPLIED.

## BUT LITTLE FISH WILL BE LEFT OVER AT T WHARF TODAY.

Ground fish are in fair receipt at T wharf this morning, there being enough to meet all demands of the market and still have little or none left over. As is to be expected, with most of the fish fleet fishing in South Channel, haddock greatly predominate, which accounts for the price being low on them while cod and hake and pollock are well up and very profitable fish to the catchers just at present.

In all there are a dozen crafts in with ground fish fares, two drifters and 10 trawlers, the catches generally being of average size, sch. Robert and Arthur with 54,000 pounds having the largest amount.

Besides the market fleet in, two of the mackerel seining fleet are also at the fish pier with fine catches, sch. Constellation, Capt. Charles Maguire, which arrived late yesterday afternoon, hailing for 15,000 fish and sch. Saladin, Capt. Wallace Parsons, in this morning, having 18,000 fish. The fish generally run large, but there are some mediums in each lot. The Constellation sold yesterday afternoon at 16 cents for large and 12 cents for mediums and this morning sch. Saladin received 17 cents for her large and 12 cents for her mediums.

Haddock sold for \$1.25 and \$2.25 and large cod for \$2.50 and \$4, with hake at \$3 and pollock \$2.

### Portland Fish Notes.

More mackerel were brought into Portland Tuesday, so that it seems the supply is still keeping up. In all there were 1400 pounds and they found a ready market.

Another one of the focal fishing fleet sch. Albert W. Black, is now being painted and put into first class shape for a sword fishing trip.

Fifteen barrels of shad were landed Tuesday from the Cape where they had been taken in the traps of Charles Olsen.

In all 125 barrels of large herring were received and Tuesday they were at once placed in the Portland Cold Storage Company for future use. There will be a big demand for them later.

### Nova Scotia Salt Fish Notes.

The spring catch of Lunenburg codfish is now at hand. It has been brought home, in fact, and is reported to amount to between 70,000 and 80,000 quintals. Prices are high. Dealers recognize the danger of stocking up at prices clear to the top notch of last season with the summer catch of codfish still to be brought home. The result in Labrador, Newfoundland and elsewhere is entirely problematic. Under the circumstances extreme caution seems to be the urgent and only safe policy. Prices are so high that it would appear to be impossible they could advance further.

"Stocking up at the top notch prices of the end of the past season," said one of the biggest dealers in the New York market, who has recently returned from a tour of his company's curing plants down East "Seems like laying the foundation of a new house on the roof of the old one."—Fishing Gazette.
